Hey, don't cut in line!
We're all freezing our butts off here!
ほわ
Form a line, please!
We still have plenty of noodles left!
Here now, take this.
It'll warm you right up.

Hey, hey, old man!
Everyone here is cold and starving, let 'em wait their turn!!
Come now, don't be so strict. Little kids should get priority.
What a pain...
You need to try and be nicer to people!
Mentaro!!
Komugi, huh?
I don't gotta listen to you.
Are you okay, Alan? You've been going non-stop.
Big bro-!! I replaced the stock, so keep an eye on the flavor!!
Okay, Kage-nosuke.
No problem!
I love udon. Japan is like a motherland to me.

Today's youth isn't to be underestimated.
This has been quite the operation. All of these students banded together to distribute emergency rations.
Director!
We just barely made it, huh?
06
What? This was an emergency situation.
The wholesale flour store's warehouse had to be opened to the public, or I'm sure everyone would have starved to death by now.
I'd say the same goes for you, Director.
By the way, about that person...
She's a cute one, that Komugi.
Besides, my daughter asked me to.
Kazami...
He hasn't been found yet, right? That acquaintance of yours...

With a "Been a while, Pops."
I'm sure he'll pop up sooner or later.
He's not the type to go off and get himself killed.
What, him? I'm not worried.
Where the heck does all this snow and wind keep coming from?
Man, this wind is annoying...

Destron was hunting humans at the Sunport again today.
Hey, did you hear?

Miss ...
Hey, guys!
Brainwashed... You mean they'll never return home?
I heard a rumor that the people they take get brainwashed and turned into those black-clad soldiers.

You guys are being really insensitive!

Ah... I see.
Don't you know? Mentarou's father went missing too!

You're looking for Kazami, yeah?
We can't let an old guy like you run around in this blizzard all alone.
You guys don't have to come along, you know.
Heh heh.
Where'd you wanna look today?
Well...
I was thinking around Symbol Tower.
Besides...
That's right... I don't think anyone can get near it right now.
The storm's super bad over there!
Symbol Tower??

That's where
Badan's pyramid is...
